

TOM FORD EYEWEAR

TOM FORD EYEWEAR FALL/WINTER 2019-2020 COLLECTION

The new Tom Ford eyewear collection for Autumn/Winter 2019-2020 is characterized by significant volumes and well-defined profiles, making the models unique and immediately identifiable as belonging to the brand. Among the new styles we find iconic details such as the metal 'T' logo on the front and the infinity shape, designed in a flat metal version which celebrates the strength and sensuality of the female world.

This new collection also features an exclusive 'Crystal Edition' model, a precious pilot style in two colour variations—silver and rose gold—enriched with over 300 hand-set crystals on the front profiles and on the thin metal temples.

SUNGLASS COLLECTION

FT0715- Sandrine

A cat-eye model with the iconic symbol of infinity on the front, characterized by a metal frame that supports the lens, and a metal 'T' logo on the front and the acetate temples.

FT0728- Antibes

A precious pilot style in two colour variations—silver and rose gold—enriched with over 300 hand-set crystals on the front profiles and on the thin metal temples.

FT0729- Christian

Square-shaped acetate frames distinguished by irregular, thick temples and the iconic 'T' logo on the front.

FT0730- Rizzo

A square-shaped men's model in acetate, with side spoilers in the lens and the iconic 'T' logo on the front.

FT0731- Aristotle

A square-shaped men's model in acetate, with super-thick temples and the iconic 'T' logo on the front.

FT0733-Gino

A square shape in acetate with a special metal insert in the side spoiler and the iconic 'T' logo in metal on the front.

FT0736-Sebastian-02

A geometric '90s pilot style with a branded metal plate in the upper part of the front, and the iconic 'T' logo on the front.

FT0740-Charlie-02

An iconic cat-eye mask style with the symbol of infinity on the front, characterized by a metal frame that supports the lens, the metal 'T' logo on the front and the acetate temples.

EYEGLOSS COLLECTION

FT5577-B

A design with a decidedly vintage inspiration, with thin acetate profiles and the metal 'T' logo on the front.

FT5602-B

An extremely feminine cat-eye model in acetate with unusual thick temples that taper out towards the tips, and the iconic 'T' logo on the front.

FT5604-B

A men's model in light metal, with a double bridge, very thin temples and the metal 'T' logo on the front.

FT5608-B

A rounded model in lightweight acetate with the iconic 'T' logo on the front.

FT5643-B

A very feminine cat-eye model in thick acetate with the iconic 'T' logo on the front.
