

## **PRESS RELEASE**

### **2018 SEASON**

#### **An educational tour to meet our local region, from the field to the bottle.**

Nestled in the heart of the distillery, the two stills that came straight from Scotland invite visitors to share The Owl Distillery's passion for whisky.

It is the opportunity to set foot in Hesbaye, a region where the barley that gives its whole character to Belgian Owl grows.

During your tour, we will tell you the secrets of how to make 100% Belgian single malt whisky.

Finally, all your senses will be brought to life during a double tasting: Origine (non-aged distillate) and Identité (single malt whisky aged for 36 months).

The jewel of Belgian whisky gives you the opportunity of three different types of tours:
