

## EYEWEAR

TOD'S SPRING/SUMMER 2021  
EYEWEAR COLLECTION

Tod's presents the new Spring/Summer 2020/21 eyewear collection, which revolves around two themes. The first theme of *Iconic* is made up of standout frames characterized by exclusive leather detailing from skillful manufacturing techniques. These frames feature leather threading, a unique stitching technique done entirely by the hands of expert Italian artisans. Also appearing in this segment is leather braiding, the skillful art of weaving colored leather strips together to lend a distinctive, handcrafted feel to each product. The second theme, *Timeless*, lends a contemporary, elegant twist to retro-inspired frames through the instantly recognizable metal *T* detail. Other signature elements of Tod's frames include vintage inspirations and premium materials inspired by the brand's at large.

New to this collection is a larger, bolder *T* detail. This iconic element adds the perfect level of distinctiveness and appears throughout other new releases in the Tod's accessories collections.

### Sunglass Collection

#### **TO0289**

The perfect style for the woman who wants to be noticed, the square frame conveys a retro allure while staying in tune with modern trends. The new, larger iconic *T*, dons the frames temples for unmistakable brand element and ties back to the brand's greater accessories collection.

#### **TO0290**

An elevated take on modern trends, the oversized round frame offers a classic aesthetic. The new, larger iconic *T*, dons the frames temples for unmistakable brand element and ties back to the brand's greater accessories collection.

#### **TO0291**

A tribute to Made in Italy craftsmanship, the women's sunglass features the brand's signature leather treading along the temples. Delivered in refined, lightweight metal with a sleek double bridge, the style makes for the perfect modern, elevated accessory.

#### **TO0293**
